NOTE: The SOP # (Standard Operating Procedure number) is a reference to the laboratory method used.

The SOP heading in this Excel file is linked to the method summary on the Laboratory website. <http://anlab.ucdavis.edu>

NOTE: No result within this report is accurate to more than 3 significant figures. More figures may be present due to software rounding rules.

NOTE: ISM indicates there was insufficient sample material to perform the requested analysis.

NOTE: All solid sample analyses are performed on dried and ground material unless method specifies "wet" analysis.
